## EDUCATION

### University of Colorado Boulder – Leeds School of Business

B.S. in Business Administration, Dual emphasis in Business Analytics and Information Management

May 2026

GPA - 3.285

## EXPERIENCE

### ATM Analytics / Operations Intern | Brinks Money, Remote

May 2025 - December 2025

- Queried customer account and transaction data using SQL-based reporting workflows on the AMP ATM cash management platform, gaining hands-on exposure to financial data pipelines.
- Participated in customer troubleshooting sessions alongside the product team, documenting client pain points and synthesizing feedback into actionable development priorities.
- Developed sales enablement guides translating AMP's dashboard and reporting capabilities into client-facing materials for prospective ATM operators.
- Overhauled 100+ pages of platform documentation, updating all content to reflect the current interface, features, and workflows across the AMP system.

### Competitive Mogul Ski Instructor | Stratton Mountain, Stratton, Vermont

November 2018 - December 2023

- Coached teen athletes in competitive mogul skiing across 5+ seasons, designing individualized training plans and preparing students for local and regional competitions.
- Built lasting relationships with returning students and families season over season, resulting in consistent re-enrollment and a strong reputation as a trusted instructor within the program.

## PROJECTS

### NBA Contract Value Analysis: Paid to Produce | Python, R

- Collected and merged player salary and advanced stats in Python, to build a linear regression in R that models expected player contribution using VROP.
- Visualized results with ggplot2, showing over and underpaid players, published as portfolio project with full methodology.

### Breaking Down the 2025 NFL Season | Python

- Analyzed full-season NFL play-by-play data in Python to surface team-level insights across offensive and defensive efficiency, play-calling tendencies, and clutch performance metrics for all 32 teams.
- Produced four publication-style matplotlib visualizations translating the underlying data into a digestible narrative; published findings as a public portfolio piece.

### Boston Red Sox Attendance Analysis | Tableau

- Combined game-level attendance, results, and playoff probability data from Baseball Reference and FanGraphs, building a multi-view Tableau Stories dashboard to identify the strongest drivers of single-game attendance
- Identified playoff probability as the dominant factor over opponent quality and scheduling variables; structured findings as a data-driven narrative and published as a public portfolio piece

### Marketing Analytics Case Competition | Corpse Reviver

- Consumer research and competitive analysis for open ended brand strategy pitch to Corpse Reviver's executive team. Collected consumer data of current and competition to identify a positioning gap in the functional beverage market.

## LEADERSHIP

### Zeta Beta Tau, Boulder, Colorado

September 2022 – May 2026

*Vice President / Academic Chair / Alumni Relations Director*

- Served as VP overseeing day-to-day operations for a 100+ member chapter, chairing executive board meetings, and driving strategic planning across officer teams.
- Designed and managed academic support initiatives as Academic Chair, contributing to improved chapter GPA and member retention.
- Built and maintained alumni relationships as Alumni Relations Director, planning events that strengthened connections between current members and the broader alumni network.

### Leeds Association for Information Systems (LAIS), Boulder, Colorado

February 2023 – May 2026

*Member*

- Engaged with industry speakers from companies including Salesforce, Google, Deloitte, and AWS through workshops and events focused on analytics, information systems, and technology-driven innovation.

### Financial Planning Club, Boulder, Colorado

October 2022 – May 2026

*Member*

- Grow financial literacy, explore wealth management strategies, and connect with industry professionals through workshops
