EDUCATION

University of Colorado Boulder – Leeds School of Business May 2026
B.S. in Business Administration, Emphasis in Data Analytics and Information Management GPA - 3.285
• **Relevant Courses:** Computational Reasoning, Business Analytics, Python Programming, Information Management and Analytics, Business Applied Semester Experience, Principles of Accounting

EXPERIENCE

ATM Analytics / Operations Intern | Brinks Money, Remote May 2025 - December 2025
• Overhauled 100+ pages of outdated user documentation for AMP, an ATM cash management platform, updating all content to reflect the current interface, features, and workflows.
• Developed a suite of sales enablement guides used by the sales team to pitch AMP’s dashboard and reporting capabilities to prospective independent ATM owner clients.
• Participated in customer discovery sessions alongside full-time product team members, documenting client pain points and product feedback to inform ongoing development priorities.
• Gained exposure to SQL-based reporting workflows used by the AMP team to query customer account data and transaction data.

Vice President / Academic Chair / Alumni Relations Director | Zeta Beta Tau, Boulder, Colorado September 2022 - Present
• Served as VP overseeing day-to-day operations for a 100+ member chapter, chairing executive board meetings, and driving strategic planning across officer teams.
• Designed and managed academic support initiatives as Academic Chair, contributing to improved chapter GPA and member retention.
• Built and maintained alumni relationships as Alumni Relations Director, planning events that strengthened connections between current members and the broader alumni network.

Competitive Mogul Ski Instructor | Stratton Mountain, Stratton, Vermont November 2018 - December 2023
• Coached teen athletes in competitive mogul skiing across 5+ seasons, designing individualized training plans and preparing students for local and regional competitions.
• Built lasting relationships with returning students and families season over season, resulting in consistent re-enrollment and a strong reputation as a trusted instructor within the program.

PROJECTS

NFL Play-Call Optimization Model | Excel Solver December 2025
• Built a nonlinear optimization model in Excel Solver using Kaggle NFL data (2003–2020) to determine the mathematically optimal pass/run ratio for maximizing expected points scored in a season.
• Model identified an optimal 53.3% pass share (537 pass / 476 rush attempts), projecting 384.77 expected points vs. the historical league average of 355.55 — a +29 point improvement.

University Freshmen Retention Analysis | Tableau November 2025
• Analyzed 4 years of real university enrollment data using Tableau Stories to uncover retention trends across gender, ethnicity, GPA, and financial aid for the College of Health Sciences.
• Forecasted that 124 of 516 incoming freshmen were at risk of not returning, delivering 3 data-backed retention recommendations.

LEADERSHIP

CU Real Estate Club, Boulder, Colorado February 2023-Present
Member
• Explore industry trends, network with professionals, and engage in hands-on learning experiences such as property analysis, market research, and investment strategies.
